

## Information for NST Part II students wishing to continue to NST Part III

Each Part III subject has an application process which is summarised on the following page.

If you are considering taking a Part III subject, you should:

- familiarise yourself with the Entry Requirements
- view information on the relevant subject from the links at:  
<http://www.natsci.tripos.cam.ac.uk/contacts/course-websites>
- discuss with your Director of Studies and/or the Course Organiser if you need further advice
- make an application to your chosen subject - if you apply for more than one Part III you should advise each subject of any other applications and state your order of preference – even if these are for subjects outside the Natural Sciences Tripos
- comply with any subject-specific requirements by the designated deadline
- keep your College informed and comply with any additional procedures the College may require
- ensure that you keep both the Department and the College informed of any changes during the process
- if you are applying to a Part III run by a different Department to your current Part II, ensure that your examination results are passed to the Department as promptly as possible after the final results are known
- accept or decline as soon as possible after you receive a firm offer of a place

N.B. You can only be a candidate for Part III if you have not proceeded to the B.A. Degree. On successful completion of the M.Sci you will also be awarded the B.A.

The above information should be read in conjunction with:

Consideration of special cases is published on the relevant Entry Requirements Notice in the Reporter. A link to the page is accessible from:

<https://www.natsci.tripos.cam.ac.uk/students/fourth>

Examination review Procedure as published in Statutes and Ordinances, Chapter III (pg220):

<https://www.admin.cam.ac.uk/univ/so/pdfs/2020/ordinance02.pdf>

### Natural Sciences Tripos Part III

Entry criteria for all subjects are published at <https://www.natsci.tripos.cam.ac.uk/students/fourth>

Part III Subject	Method of application	Deadline for receipt of application	No. of places available	Provisional decisions made by
<b>Astrophysics</b>	Email sent to all current Part II Astrophysics students requesting an expression of interest	Last day of Full Easter Term	25	Late June
<b>Biochemistry</b>	Email sent to all current Part II Biochemistry students requesting an expression of interest	First Friday in May	30	Last Friday in May
<b>Chemistry</b>	<a href="http://www.ch.cam.ac.uk/teaching/admission-part-ii-and-part-iii">http://www.ch.cam.ac.uk/teaching/admission-part-ii-and-part-iii</a>	Last Friday in May	No limit	All applicants are provisionally accepted
<b>Earth Sciences</b>	Email sent to all current Part II Earth Sciences students requesting an expression of interest	Last day of Full Lent Term	50	First day of Full Easter Term
<b>History and Philosophy of Science</b>	details at: <a href="https://www.hps.cam.ac.uk/study/undergraduate/partiii#apply">https://www.hps.cam.ac.uk/study/undergraduate/partiii#apply</a>	Friday 18 <sup>th</sup> March	20	Easter Term
<b>Materials Science</b>	Web form. Link will be emailed to current Part II Materials Science students	Last day of Full Lent Term	40	First day of Full Easter Term
<b>Physics</b>	Email sent to all Part II Physics students requesting a web entry	Last day of Full Lent Term	No limit	First day of Full Easter Term
<b>Systems Biology</b>	website form: <a href="http://www.sysbiol.cam.ac.uk/Part%20III/registration-form">http://www.sysbiol.cam.ac.uk/Part%20III/registration-form</a>	Last day of Full Lent Term	24	First day of Full Easter Term

**Final decisions are normally made by the end of June**
